STAHELIN'S NURSERIES

**BRIDGMAN,
MICHIGAN**

Spring **1952
CATALOG**

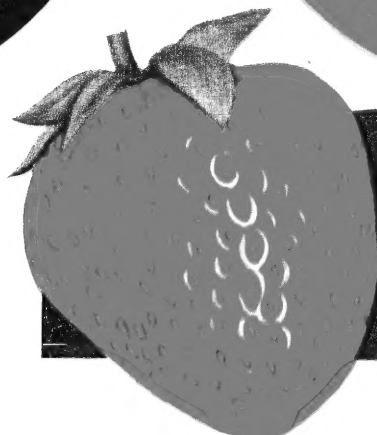

Patent Applied For

GOLDENETTE

A Great New Yellow Freestone Peach!

There have been several additions to the Stahelin's Peach Family in the past few years, such as White Hale and Michigold, but our new peach—Goldenette—tops them all. A peach of marvelous size, of pure golden color, with a slightly red cheek. A wonderful shipper with the flesh bright and golden. Extremely fine texture.

Goldenette is perfect flowering, a freestone, and the tree is a good grower. Don't miss the boat by not trying Goldenette. **Price: 9/16 trees each \$2.50; 5 for \$12.25; 10 for \$20.00.**

PATENT
PENDING

BRILLIANT
Everbearing Strawberry

*Sets
World Record
for Production*

7000 *Quarts from
One Acre!*

From tests made by an impartial Experimental Station in Ohio, BRILLIANT achieved the amazing production record of 7000 quarts per acre—2000 quarts more than any other everbearing variety tested. In dollars and cents, this means you can **increase your berry profits 40% per acre**, by planting BRILLIANT this spring. Order your plants now for a head start on the BIG profits.

Stahelin's New **BRILLIANT**

Pat. Pending

Everbearing Strawberry *Has Everything*

This sensational new Everbearer rates a winning score on every point: **Larger Size. Brighter Red Color. Outstanding Flavor. Best Canning and Freezing Qualities. Greater Yield. Strength and Vigor of Plants.** No other Everbearer can match BRILLIANT for uniformly large, top quality, bright red berries. The color is absolutely **bright red** clear through even when mashed or finely cut. The flavor is a mouth-watering, tangy, true-strawberry flavor, which most Everbearers lack.

BRILLIANT is a superior berry for home freezing and canning—retaining its vigorous flavor, rich color and firm quality. And for fresh desserts it offers you a real taste-thrill!

Better Plants Mean Bigger Profits

There is no question about it. The only way to get bigger profits is by growing big money-making crops. Healthy, vigorous plants with strong root systems are insurance against crop failure. BRILLIANT has proved itself under all conditions of soil and climate. Where other varieties fail due to excessive rains or drought, BRILLIANT will thrive and bear steadily throughout the fruiting season.

A Keplinger Origination

BRILLIANT is another find of that plant wizard F. J. Keplinger, who also produced the Gem and the Superfection. Originated in northern Michigan, the plants are extremely hardy. We believe BRILLIANT will become the leading Everbearer because of its many superior qualities.

Plant Now!

and Get in on BIG Cash Profits

Do you want a sure-fire, quick money-making crop? Then try a planting of BRILLIANT this spring and you will realize greater profits per acre than ever before. These high-powered plants will start to bear in just a few weeks after setting out, and will keep right on producing steadily all summer and fall. BRILLIANT'S amazingly high production—one to two quarts of berries per plant, over 2000 quarts more per acre, than any other Everbearer—will earn you big cash profits right from the start.

Save on Food Budget— Earn Extra Cash Too

Brilliant yields such enormous crops, even a small planting of less than an acre will provide enough berries for every home need and give you a large surplus to market locally. These berries are so big and handsome, they always bring top prices on the fancy fruit market. You can make yourself a nice cash income and save on food budget, too, by planting BRILLIANT this spring. Order your plants now.

Proper Planting Is Essential

Plants should be set 12 inches apart in the row, BRILLIANT succeeds equally well on thin sandy soil or heavy clay. On rich sandy loam, runners should be cut off until mid-August. BRILLIANT is a 100% perfect pollinizer and the only Everbearer that makes a solid fruiting row. Complete Cultural Instructions will be sent with each order upon request.

Save By Planting Now!

Stahelin's Fresh Dug, Northern Grown Plants are Best for Every Location

Issuing of this 1952 catalog finds us still in the same position as we were last year, i.e., constantly rising prices. We again urge our friends, who are interested in planting, to do so now! There have been no radical changes in prices of nursery stock since 1945, but now they have come and are going still higher, as long as present conditions exist. Of course, under these circumstances, you can expect your fruit to bring more money also. These higher costs will probably remove some items from the nursery line due to so-called "overhead" and if you are interested in planting anything this coming spring, we believe it will save you considerably to do so. Our northern location will give you stock of unusual hardiness not found anywhere else. We can start to ship here about the 15th of March and our plants remain quite dormant until the middle of May. We guarantee safe delivery and will ship C.O.D. if desired, with a 25% down payment. We ship no storage stock, practically all plants being fresh dug.

C. A. Stahelin

F. C. Stahelin

Keep All Papers

If necessary to write at any time, be sure and return all papers sent you except planting instructions. All papers pertaining to your order will be returned to you when order is acknowledged. Do not destroy them!

TRANSPORTATION

Unless otherwise stated in catalog, transportation charges on all stock listed in this catalog are to be paid by the customer, as the weight of nursery stock cannot be determined exactly in advance of shipment.

FALL SHIPMENTS

We encourage the fall planting of nursery stock. Plants and trees are dormant then, and when warm weather comes in the spring, your stock is ready to commence growing. Nursery stock cannot be shipped until it has had some cold weather to harden it up, and fall shipments are usually made after the middle of October. NO DISCOUNT ON FALL ORDERS.

TERMS ON C.O.D. ORDERS

We can ship C.O.D. if the order amounts to \$5.00 or more at full catalog price, no discount allowed, but 25c on each dollar must be included with your order as a down payment. If order amounts to \$5.00, send \$1.25 with the order; if \$6.00, send \$1.50, etc. You may inspect express shipments before you pay. (Parcel Post not subject to examination.) If satisfactory, pay the agent the amount due. No C.O.D. shipments made after April 25th.

CERTIFICATE OF NURSERY INSPECTION

Michigan State Department of Agriculture—Orchard and Nursery Inspection No. 387.

This is to certify that the nursery stock of Stahelin's Nursery, Bridgman, Michigan, has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases. Fee paid \$26.70.

Chas. Figy, Commissioner,
Lansing, Mich.

Bureau of Agricultural Industry,
C. A. Boyer, Director.

August 14, 1951.

DON'T WAIT TO ORDER

Our customers have been very fine in the past few years in placing their orders early. Please remember that the shipping of strawberry, asparagus and that class of plants, depends entirely on weather conditions here. WE POSITIVELY DO NOT SHIP ANY STORAGE PLANTS. We will endeavor to fill your order as close to the time specified as we can, but if excessive rain or cold weather hits us at that time of the year, there may be a slight delay.

10%

CASH DISCOUNTS

Orders received during January at the prices quoted in this catalog, with cash in full enclosed, are subject to a 10% discount. This amount to be deducted from your remittance. No cash discount on Bargains or Special Quotations made by mail. THIS DISCOUNT NOT GOOD AFTER FEBRUARY 1st, 1952.

NOTICE

For approximate shipping charges, refer to the back of our order sheet enclosed with this catalog. Complete schedules and rates, as closely as they can be figured, will be found there.

STAHELIN'S GUARANTEE

We guarantee our stock to be true to name. If it proves otherwise, it will be replaced free of charge.

We guarantee that our stock is exactly as described in our catalog and is guaranteed to reach you in live and growing condition. Any stock not being as described above, will be replaced free of charge, but the customer must report this condition **at once** upon receipt of shipment.

If the shipment is unduly long in reaching you, be sure to secure a signed statement from your local agent and send it to us.

Weather and other conditions being beyond our control, continued growth is not guaranteed.

Giant Cultivated BLUEBERRIES

Rubel

The cultivated blueberry will bring more money per acre than any other type of berry plant that we know of today. These marvelous berries can be grown on any soil that is moist and has a slight acid reaction. The fruit is remarkably large and the quantity is such that you cannot adequately describe it. Free cultural instructions upon request.

JUNE Very Early

During the past several seasons this variety has proved to be a fine producer, bringing high prices. It ripens a little earlier than Rancocas. Bush is medium high—fruit is firm and of good quality. Available in 2 yr. and 3 yr. old plants only. **PRICED BELOW.**

RANCOCAS Early

The Rancocas variety of blueberry is of excellent quality, and a very good shipper. The bush does not grow as tall as Rubel, but it produces a lot of fruit over a long picking season. Always commands a good price because it is early. **PRICED BELOW.**

STANLEY Early Midseason

A tall vigorous grower. Produces very large berries of wonderful quality. Bush has thick shiny leaves. A good variety to plant as companion to Rubel and Jersey. Vigorous plants, large berries, very productive. Available in 2 yr., 3 yr., and 4 yr. old plants. **PRICED BELOW.**

BARGAIN NO. 1

Three of our largest size blueberry plants that will bear this year. You choose the varieties.

2—4 yr. old plants
1—5 to 8 yr. old plant **\$6.05**
A \$7.10 value for....

Net, not prepaid

JERSEY Midseason

In our opinion, Jersey is superior to some of the other blueberries. The bush is very upright, vigorous, and a large producer. Fruit is enormous, very attractive, firm and sweet. **PRICED BELOW.**

RUBEL Late

This variety was one of the first to be offered to the public and is still one of the best. It is a parent of many of the present hybrids. Bush is upright, vigorous, hardy, and a heavy bearer of large fruit. **PRICED BELOW:**

BLUEBERRY PRICES:

DWARF FRUIT TREES

Dwarf Pears bear early
—often the next year
after planting.

BARGAIN NO. 2

- 1 Apple 3-4 ft. (Your Choice)
- 1 Pear 2-3 ft. (Bartlett only)
- 1 Oka Cherry 3-4 ft.

3 Dwarf Trees

\$5.25 Net,
No
Discount

Dwarf fruit trees can be grown successfully in very little space. They produce the same as the larger trees and bear quickly. Two or three years after planting, you can usually expect to get quite a crop of fruit. If you are cramped for space, plant a few of these dwarf trees. They only grow 10 to 12 ft. high and can be planted less than 15 ft. apart. We use only the best of Malling understock and you are assured of getting good trees, which will increase in value from year to year. Beautiful ornamental trees early in spring when they are in full bloom.

DWARF APPLE TREES

Our Dwarf Apple trees are hardy and productive, often bearing more fruit than standard trees of proportionate size. Due to their small size, they are easy to prune and spray, and the fruit is very easily picked. We offer the following varieties in these dwarf apple trees: RED DELICIOUS, YELLOW DELICIOUS, NORTHERN SPY, and YELLOW TRANSPARENT. Price 3-4 ft. trees \$3.00 each; 2 for \$5.50; 5 for \$12.50.

DWARF PEAR TREES

The trees are small but the pears are big! These beautiful heavy-bearing trees are offered in one variety only—the old standard—BARTLETT. It is the best pear that we have today for all purposes. These trees produce top quality fruit, often larger than average trees. Foliage and size make them very attractive for landscape work. Ideal for the small yard. Price 2-3 ft. trees each \$1.75; 2 for \$3.25; 5 for \$6.95. 3-4 ft. trees each \$2.25; 2 for \$4.00; 5 for \$9.50.

Above is a Dwarf Delicious the 3rd season after planting. These trees bear soon, have large crop of good-sized fruit.

DWARF SAPA PLUM

Red-fleshed Plum. Delicious, sweet, and juicy. Medium size. Small freestone. Produces in coldest climates. Fruit is firm, good for canning and shipping. Plant two for best results. PRICE: 3-4 ft. trees each \$1.55; 2 for \$3.00; 5 for \$6.85.

DWARF OKA CHERRY

Larger than Sweet cherries, the fruit is dark purplish red all the way through. This hardy Hybrid Cherry-Plum bears a full crop even in coldest climates where regular Sweet Cherries do not thrive. Sweet and delicious, fresh or canned. Small stone. Plant two for best results. PRICE: 3-4 ft. trees each \$1.55; 2 for \$3.00; 5 for \$6.85.

Sapa Plum

NEW VARIETIES

REDCROP

Redcrop is an early mid-season variety—an introduction of the New Jersey Agricultural Experiment Station. It is proving to be a good producer, and in central and southern New Jersey, growers have reported an average of from 3,000 to 5,000 quarts per acre. Redcrop makes an excellent frozen product because it is deep red clear to the center. A most attractive market berry of medium to large size and good color. Red Steele resistant. Vigorous and makes a well matted row.

PRICES:

25 for \$1.35	100 for \$ 3.45	1000 for \$18.50
50 for 2.35	250 for 6.45	2000 for 35.00
	500 for 10.25	

ARMORE

**Beautiful Color
Delightful Flavor
Uniform in Size**

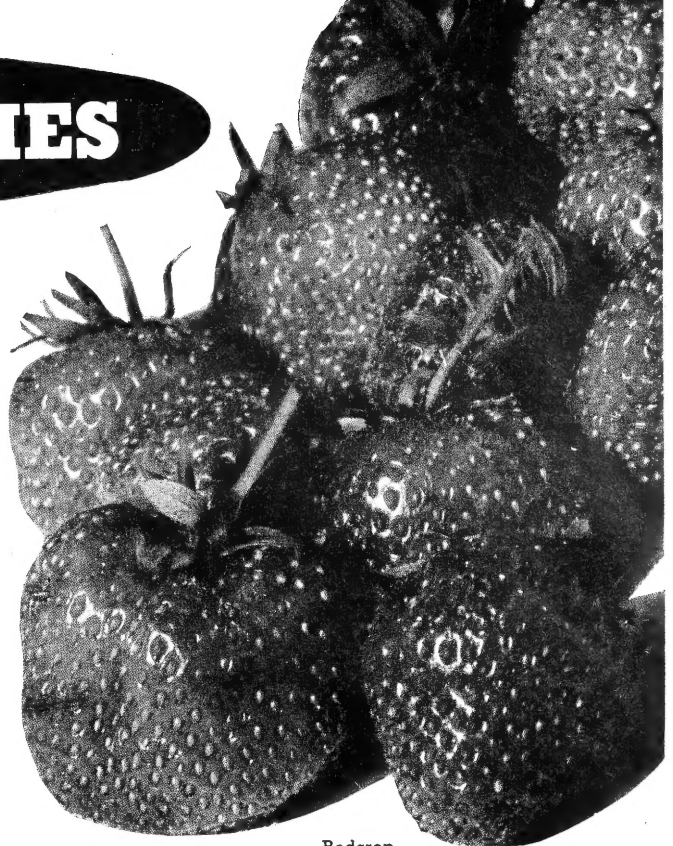

Sunset Red in color and so uniform they look like fashioned "V"s in a dish or box. Armore came from the Missouri Experiment Station and proved a top-notch by showing up as more productive than any of sixty other varieties. Continues fruiting over a long period of time and leaves an excellent row for the following year's crop. Has superior shipping and handling qualities too! We are sure this variety will grow in popularity as it becomes more widely known.

PRICES:

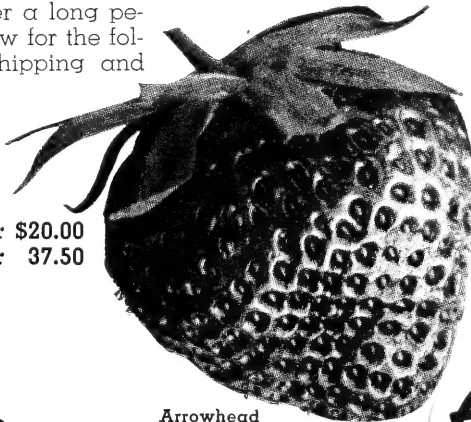

25 for \$1.40	100 for \$ 3.65	1000 for \$20.00

FAMOUS
For Its
"FROST-PROOF"
Qualities

Stahelin's

PREMIER

By means of careful plant selection for a number of years, we have perfected a strain of Premier that we know will produce more plants per acre than any other strain of Premier. Our Premier is adapted to all soil and climatic conditions. The picking season is long, commencing with the first and continuing to produce large size fruit until the late varieties are practically over. Premier is very easily picked, and easily sold because of its large size. Stahelin's Premier is practically immune to late spring frost and if you are located in a section where such trouble occurs, you can be assured of getting a fine crop if you will plant our Premier. This is due to the peculiar plant growth which it makes, almost completely hiding the blossom and protecting it from severe cold. Berry is extremely juicy, yet quite firm, making it an excellent shipper. Comes on the market when there are practically no other strawberries. Fruit is bright showy red with a large calyx. For a big crop of fine fruit in spite of cold weather when plants are in blossom, plant Stahelin's Premier.

TEMPLE

The New Strawberry That Is Entirely Resistant To All Root Diseases

We have fruited Temple quite extensively here on our farms for the past several years and think that it is one of the finest desert strawberries we have ever picked. It has a beautiful dark red color and is very firm when fully ripe. Flavor is excellent and its dark red color, clear through, makes it very desirable for freezing. Temple is a very remarkable grower, will survive wet weather conditions under which the ordinary strawberry would be a total failure. Plants grow unusually tall, yield heavily, and fruit ripens a few days later than Premier. Berries are large, have a brilliant calyx and present a fine appearance when packed. Due to its firmness and color Temple is a very good shipper. We believe commercial plantings of this variety should be increased.

Two Strawberries Recommended as The BEST for HOME FREEZING

New SPARKLE

The Sparkle strawberry, which gets its name from its sparkling appearance, came to us from the New Jersey Experimental Station. This variety is very resistant to Red Stele and other strawberry diseases which sometimes attack the weaker varieties. Will do well even under wet weather conditions, where ordinary varieties would soon die. A good plant maker, it yields heavy crops and is mid-season in ripening. A quality berry, uniform in shape, medium to large size. Excellent for freezing!

Delicious Hardy FAIRLAND

Fairland is another one of the varieties developed by the U. S. Department of Agriculture to combat the Red Stele disease. Fairland is being grown very generally in Berrien County, Michigan, one of the biggest strawberry growing sections of the Country, as a market berry, and our growers here make very favorable reports on it. The Fairland Strawberry ripens just a few days after Premier. It is just as productive as Premier with a firmer berry. The berries are large in size and an attractive light red color. Fairland has proved to be an excellent shipper and as it is entirely Red Stele resistant, it does particularly well in the middle and upper northern states. A fine variety for gardens and one of the best we know of for freezing. Berries are of good quality and the flavor is excellent. This variety is a good plant maker and one which we recommend to you for trial as we know you will like it.

Senator Dunlap

SENATOR DUNLAP

A Proven Variety For Over 30 Years

The Senator Dunlap is perhaps the oldest strawberry listed today. It was popular 30 years ago and is still popular. Much of this popularity comes from the housewife, who knows that the Senator Dunlap is one of the outstanding varieties for home use or canning. The plant is very vigorous, will grow on the poorest of soils, and seems to do well in every state of the Union. The berries are a beautiful crimson color, firm and quite pointed. A hardy variety and a good plant maker. We know it will please you.

PRICES:

25 for \$1.00	100 for \$2.25	500 for \$ 6.50
50 for 1.45	250 for 4.00	1000 for 12.00
	2000 for \$22.00	

CATSKILL

Catskill is now generally recognized as one of the best of the midseason to late varieties. This popularity is due to the fact that it will produce more quarts of large berries than any other variety. It is a sure cropper, as it ranks next to Premier in this respect. It rarely ever freezes. Catskill is bright shiny red, the berries hold their color very well, and when they are carefully packed present a very attractive appearance. The foliage of the plant is rich, waxy in appearance, and the fruit is produced on long picking stems. It ripens when the market is almost bare of fruit, and for this reason always commands a good price. Catskill strawberries are very sweet and are known as "The Sugar Flavored Strawberry."

PRICES:

25 for \$1.25	250 for \$ 6.50
50 for 2.00	500 for 10.50

Two of our best Canning Varieties

SUPERFECTION

EVERBEARING STRAWBERRY

Continuous Bearer — Excellent Shipper

The new Superfection strawberry is of Northern Michigan origination.

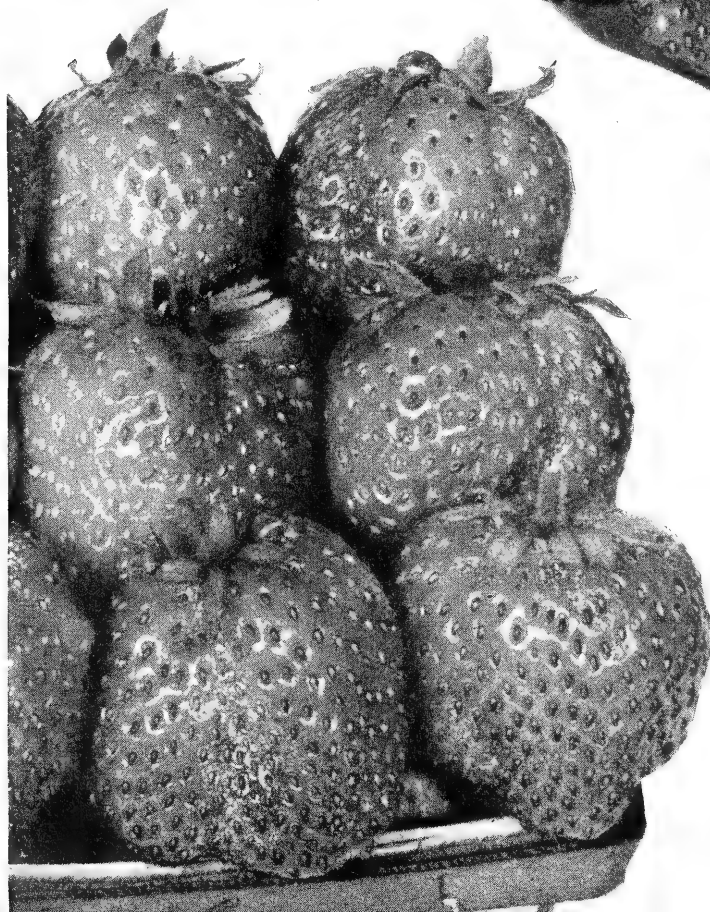

CONTINUOUS BEARER. This berry has proved to be very popular due to the fact that it bears continuously from a short time after it is planted until cold weather.

EXCELLENT SHIPPER. The berries are slightly rounded, quite firm in texture, making them good distant shippers without damage, and they have a very good flavor.

BEST BY TEST. We have been testing everbearing varieties for a number of years and Superfection has proved to be, in our test lots, one of the best of the everbearing strawberries. It has done well under all climatic conditions and we urge you to try this new variety.

PRICES:

25 for \$1.75	100 for \$ 4.95	500 for \$19.00	2000 for \$60.00
50 for 3.00	250 for 10.00	1000 for 35.00	

Scarlet BEAUTY

THE WORLD'S GREATEST STRAWBERRY

The size of Scarlet Beauty is practically indescribable. The plant is peculiar, inasmuch as it only sends out one fruit stem, but this fruit stem will have from two to three huge berries on every plant. This variety will produce as many or more quarts per acre than Premier. Fruit is outstanding due to its size and coloring.

Late Fruiting Season

Scarlet Beauty commences to ripen about the time Premier is finished. Continues to bear over a long picking season, and this semi-late fruiting brings it on the market when, in most sections, there are no strawberries to be had.

Huge Size, Bright Color

The berry itself is extremely brilliant red in color and has a large bright green calyx. This makes for beautifully appearing berries as they always look fresh no matter how long they have been packed. Buyers on the market marvel at the brilliant red color of this variety, coupled with the bright coloring of the calyx, which always makes it command a high market price. We believe that the Scarlet Beauty will produce more huge, first-class berries than any variety that we have ever seen. We believe that 100 plants should be in every garden in the U.S.A.

Thrives in Poor Soil

Due to its plant making ability, the Scarlet Beauty will thrive and produce a crop of berries on rather poor soil. Scarlet Beauty is a perfect flowering variety which requires no pollinizing. The plant is rather small but exceptionally long rooted. It has healthy foliage, is an excellent plant maker, and an immense producer. **Perfect flowering.**

MONTMORENCY

SOUR CHERRY

Very Hardy and Productive!

We have made a special effort to bud only the finest of the Montmorency strains that are now available. We also have trees from budwood furnished by the State of Michigan under the following numbers: 297, 516, 65-17, 65-18, and 65-20. There are others but we mention these specific numbers to show that we are giving you the very best trees it is possible to produce.

COMMERCIAL GROWERS!

We raise Montmorencys by the thousands and can quote you special prices if you are located in commercial cherry growing sections and plant these trees in large quantities. If you are interested in 1000 trees or more, it will pay you to come and see these trees or write us for our prices on quantity lots.

Montmorency

Schmidt's Bigarreau

Valentine RHUBARB

Newest of the red varieties. Developed in Canada. Large stalks of extremely dark red color. Flesh is very tender and has a fine flavor. Produces a bright red sauce, excellent for pies! **PRICES:** Large divisions each \$0.75; 3 for \$2.00; 12 for \$6.25; 25 for \$11.25; 50 for \$19.50.

[10]

Sweet Cherries SCHMIDT'S BIGARREAU

A hardy strain of Bing, about the same size, and presents much the same appearance. The fruit is a deep mahogany red in color, and the flesh is tender, juicy, extremely fine flavored. This variety bears young, is hardy—a sure cropper. **9/16 trees each \$1.80. Complete prices on Page 11.**

WINDSOR

A large dark red cherry. Flesh is quite firm, making it an excellent shipping variety. Fruit clings to the tree long after it is ripe. Trees are hardy, regular, prolific bearers and good pollinizers. Plant all sweet cherries on high dry soil. Wet conditions will kill them. **9/16 trees each \$1.80. Complete prices on Page 11.**

Canada Red RHUBARB

The Chipman strain of Canada Red Rhubarb is the finest obtainable today. A decided improvement over common Canada Red. **PRICES:** Large Divisions, each \$0.55; 3 for \$1.50; 10 for \$4.50; 100 for \$39.50; 500 for \$175.00.

MacDonald RHUBARB

A Canadian origination, it is bright cherry red the full length of the stalk, very large size and huge producer. **PRICES:** Large Divisions \$0.45; 3 for \$1.20; 10 for \$3.50; 100 for \$32.00; 500 for \$125.00.

Canada Red

SWEET CHERRIES

Require especially high, dry soil for successful growing. If you do not have this soil, don't waste your time planting these trees. Should be planted about 25 ft. square with no trimming done the first two years. Our alluvial soil produces a very fibrous root system, unlike most cherry trees from other districts which have only a tap root. Plant at least two trees, even if they are the same variety, for cross-pollination.

\ NAPOLEON

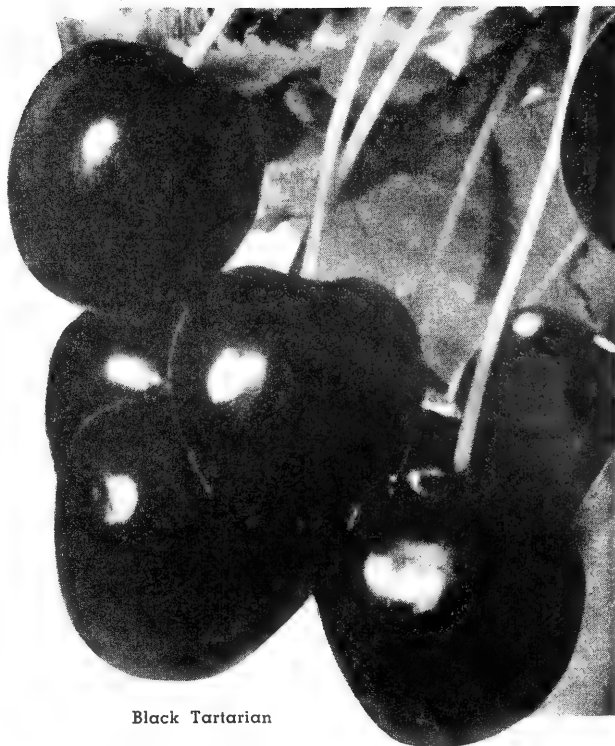

A choice yellow sweet cherry of highest quality. Large size, very firm, juicy and sweet. A heavy producer. Sometimes known as Royal Anne or White Oxheart. **PRICED BELOW.**

SCHMIDT'S BIGARREAU

A hardy strain of Bing, about the same size and appearance. Deep mahogany red in color, flesh is tender, juicy and fine-flavored. Bears young, hardy, sure cropper. **PRICED BELOW.**

WINDSOR

Large dark red cherry. Flesh is quite firm—an excellent shipping variety. Fruit clings to tree long after ripe. Hardy, prolific bearer, good pollinizer. **PRICED BELOW.**

Black Tartarian

SWEET CHERRY PRICES

All budded and well-rooted trees. Always set two trees for cross-pollination.

	Each	10	50	100

Stahelin's DISEASE-FREE, HEAVY ROOTED

FAIRHAVEN

Early—Heavy Producer—Hardy

We have increased our planting on Fairhaven Peach trees and can now offer them at very attractive prices. This is a wonderful variety and we urge the commercial planters to set it heavily. It is very hardy and during the seasons when the blossoming period is cold or foggy, it will produce a full crop of fruit when many other varieties would fail. Fruit is nearly round, mostly bright golden color, with an attractive red cheek which shows up when the fruit is still very green. Fairhaven is an excellent shipper. It matures about a week before Hale Haven and right at the end of the Redhaven season. Freestone. **PRICED BELOW.**

Fairhaven

NOTICE

We cannot ship fruit trees into the following states: California, Colorado, Idaho, Nevada, Oregon, Utah, Washington and Arizona.

HALEHAVEN

Early—Excellent Shipper, Canner

Colors all red long before it is ripe, and retains its richness of flavor over a long period. Is round in shape, very sweet flavor, and ripens about a week before Elberta. Freestone. Hale Haven is one of the greatest shipping and canning peaches ever introduced. It was originated in Michigan. It is hardy and self-pollinizing. One of our most popular peaches here. Wonderful for distant shipping. **PRICED AT RIGHT.**

GOLDEN ELBERTA

Sweet and Juicy—Good Eating

The huge golden-colored Peach. This Elberta is too well known to require any further description. It is identical with the common Elberta peach with the exception that it is a golden yellow with a slight blush on the cheek. Same season of ripening, same size, same shape as Elberta.

SPECIAL BARGAIN

Husky 18 to 30 Inch Trees

We have again grown a number of husky 18-30 inch trees. These trees are headed especially low and we can furnish them in all the standard varieties listed below: ELBERTA, SULLIVAN'S EARLY ELBERTA, HALE HAVEN, KALHAVEN, PERFECT HALE, J. H. HALE, SCARLET ELBERTA, AMBER GEM, WHITE HALE and ROCHESTER. We will fully guarantee these trees in every way it is possible to guarantee a good tree.

PRICE—In lots of 100 only \$35.00
500 for \$125.00

Net, no discount

GOLDEN JUBILEE

Sweet and Juicy—Frost Resistant

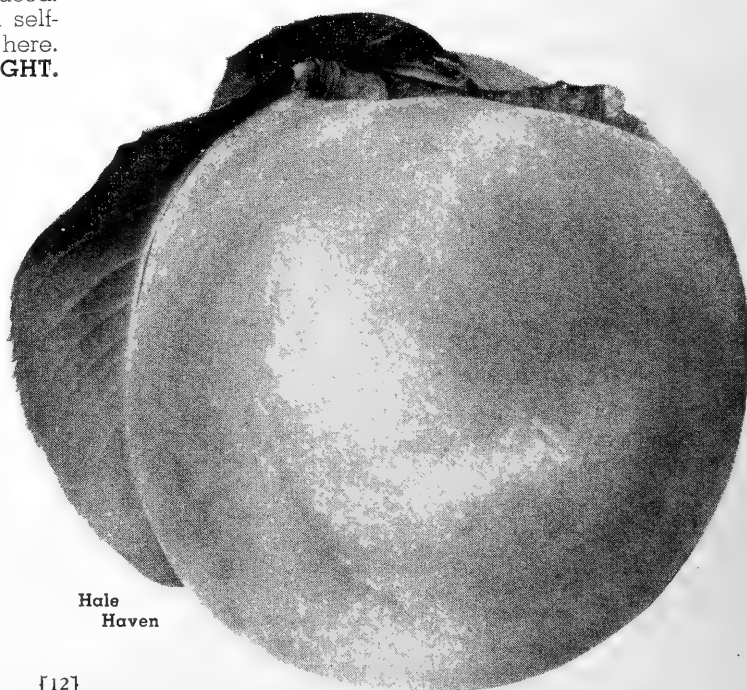

Very early. Excellent for commercial planting. Fruit is somewhat oblong in shape and has a brilliant golden color with a slightly red cheek on one side. It is golden-fleshed, very juicy, and a freestone. Perfect pollinizer. The tree is extremely hardy, producing fruit when other varieties are frozen. Fruit is delicious in flavor, excellent for fresh desserts and canning. **PRICED BELOW.**

CANNING PEACHES

AMBER GEM

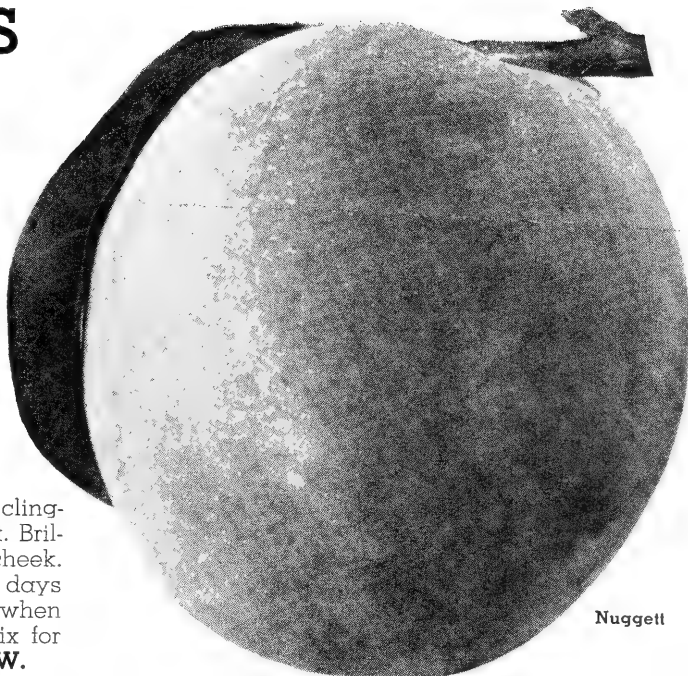

The Frost-Proof Peach

A peach that is huge in size, extremely bright red in color, tinged with yellow. A clingstone variety. The tree is thrifty, bears an enormous crop, and the peach is wonderful for canning. Extremely heavy-skinned, and the finest shipping peach that we have. Very hardy. Used by commercial canners almost 100%. Does not dry rot on the tree and we should like to see every grower plant several trees for trial. **PRICED BELOW.**

NUGGETT

California Type Canning Peach

This clingstone peach is distinctly a beauty. It is a clingstone until dead ripe and then it will come off the pit. Brilliant golden yellow with an occasional slightly red cheek. It has a marvelous flavor and ripens from 7 to 10 days after Elberta. Especially hardy, producing a crop when most other varieties are winter-killed. Plant two to six for home use and you will never regret it. **PRICED BELOW.**

Nuggett

ELBERTA

Famous For Flavor—For Making Money

No other peach has ever attained the popularity of this variety. Slightly oval in shape, golden yellow skin with a slight blush. Fruit is thickly skinned, making it ideal for shipping. Excellent for canning, drying and freezing. Ripens medium late. Freestone and self-pollinizing, also a good pollinizer for other varieties. Usually bears third year—enormous producer at maturity. Trees are quite hardy, but may be affected by severe frost. **PRICED BELOW.**

KALHAVEN

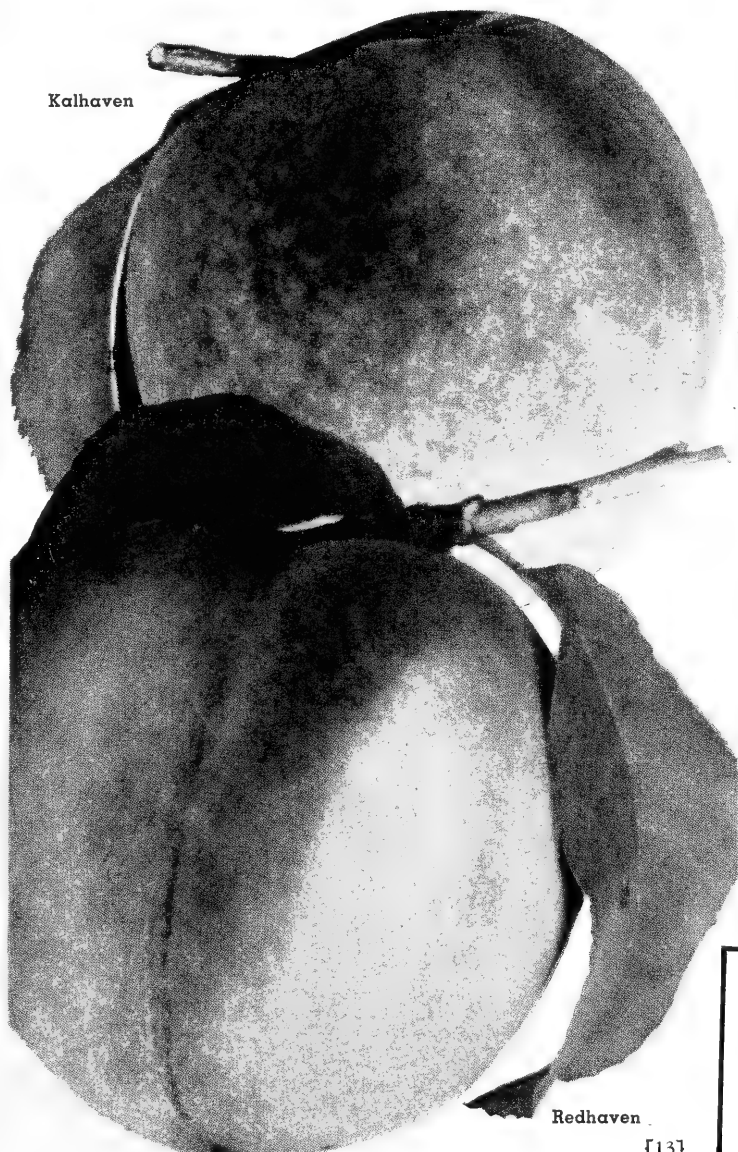

Immense—Red All Over—Good Shipper

A Michigan peach which is a result of a cross between the J. H. Hale and the old Kalamazoo variety. Immense in size; its color and flavor are excellent. Very hardy. Fruit is large, round in shape, a beautiful red color all over, and an extremely good shipper. Ripens a few days after Elberta. Freestone and self-pollinizing. When canned presents a golden colored peach of outstanding flavor and texture. **PRICED BELOW.**

REDHAVEN

Excellent Extra Early Market Peach

The Redhaven peach is a Michigan origination, which makes it especially hardy. It is practically the earliest peach that we have and as it carries a good red color long before it ripens, you can pick it almost any time you desire. It is an excellent shipper. Fruit is very firm, easy to handle, bright red in color, with golden firm-textured flesh. **PRICED BELOW.**

Stahelin's Selected

NORTHERN GROWN

Sullivan's EARLY ELBERTA

**New—Larger—Better—Ripens 7 to 10 Days
Before Old Elberta—Sells Fast**

Sullivan's Early Elberta is the new type Elberta peach that is sweeping the peach growing sections of the country. The tree is very hardy and is rapidly replacing the standard Elberta because it ripens 7 to 10 days earlier. It is identical in shape, color and flavor, but is slightly larger in size. Excellent shipper. **PRICED BELOW.**

ROCHESTER

One of the finest of the early varieties. Rich flavored, round, orange-colored, extra early peach. Excellent canner and shipper. Has delicious flavor. A fine pollinizer. Freestone. Should be thinned for best results. Very hardy. **PRICED BELOW.**

Rochester

NO STORAGE STOCK

When you order trees from us you are assured of getting stock that is fresh, and on which the bark will be firm and not shriveled.

These fresh trees are far superior to those that are kept in inside storage over winter. Our trees are subject to the coldest of weather all winter outside, and have no protection.

SCARLET ELBERTA

Extra Heavy Crops—Needs No Thinning

Ripens a few days earlier than common Elberta, but larger in size. Absolutely hardy. Wonderful for market purposes. Ideal for desserts and canning. Tree is vigorous, strong growing, and bears young. Sets a heavy crop but does not require thinning. Self-pollinizing. **PRICED BELOW.**

SHIPPERS' LATE RED

A round type peach, ripening about a week before Salloway and about ten days after Elberta. A large producer, the tree is a good pollinizer and is quite hardy. The fruit is firm, yellow, freestone, and its solid-red color presents a beautiful appearance in the basket when packed. **PRICED BELOW.**

Elberta

The Finest That Money Can Buy PEACH TREES

Michigold

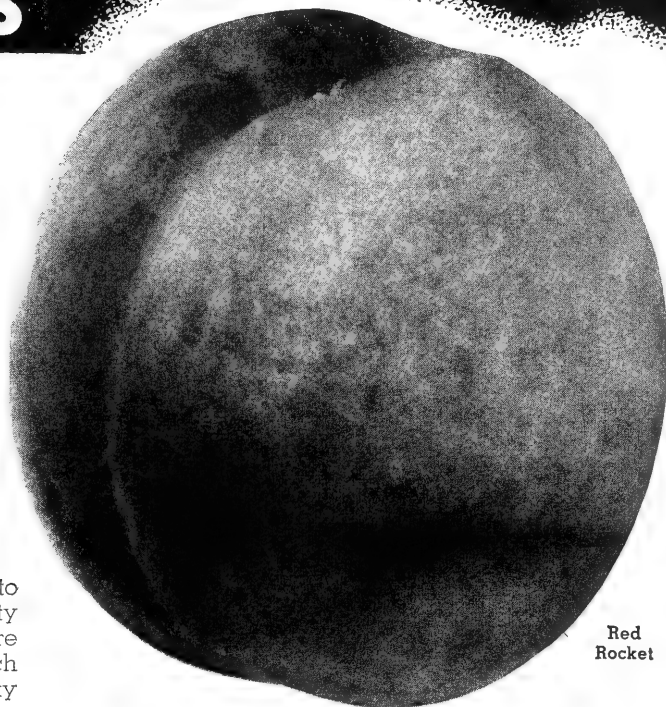

This variety ripens about the same time as Hale Haven, but is fully 15 to 20% larger. Has a bright golden color with a large amount of red if allowed to ripen, at which time it will run fully 60% red. A better quality peach than Hale Haven or South Haven, its large size always makes it bring a premium. It is freestone, self-pollinizing, and the tree is extremely hardy due to the fact that this variety originated in Michigan. Michigold should be more heavily planted by commercial growers. **PRICED BELOW.**

WHITE HALE

White peaches are not generally regarded as sorts to be planted for market but due to the unequalled quality and size of White Hale, we think it should be more heavily planted for commercial purposes. This peach originated on our own farm and is the best white variety we have ever seen. Exceptionally hardy, it has produced a crop practically every year since it was introduced. Flavor is honey-sweet and of high quality. Freestone. **PRICED BELOW.**

Hon-ee-gold

Red Rocket

RED ROCKET

**10% Larger Than Hale Haven—
More Color**

Ripens at a time when the market is always good. Fruit has an excellent yellow skin with a great deal of red when fully ripe. Flesh is firm and fine-textured. Outstanding for canning and shipping. RED ROCKET is considerably larger than Hale Haven and ripens about four to six days later. A bud sport of Fertile Hale, it originated in our own orchard. Obtainable only from Stahelin. Does not dry-rot. **PRICED BELOW.**

Hon-ee-gold
TRADE MARK
(HONEYGOLD)

**Will Not
Dry Rot
Fine Shipper**

A comparatively new peach named for us by one of our customers. It is a native of Michigan—a proven variety that has all of the good points and none of the bad. Hon-ee-gold is a marvel in size, slightly on the round type, 10% larger than Elberta. Ripens very late on the tree, has a bright red cheek and packs up beautifully in the bushel. Hon-ee-gold has excellent flavor. The inside is golden yellow with a slight amount of red next to the pit. **PRICED BELOW.**

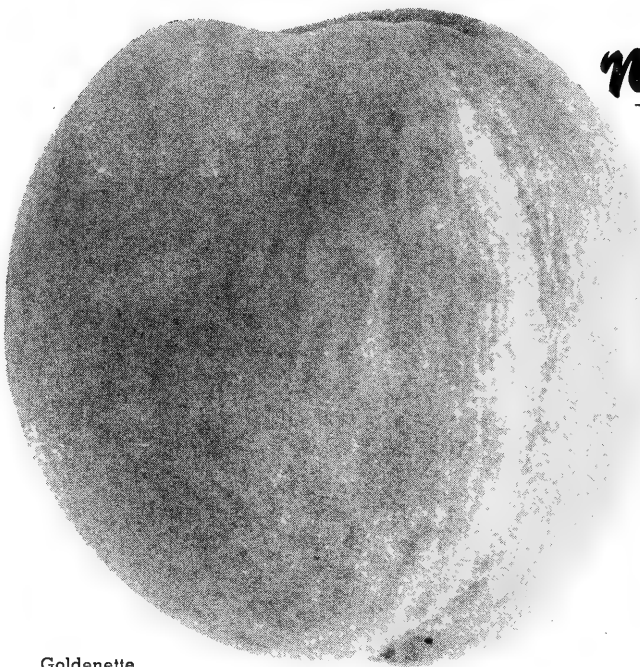

SALLOWAY

If you want a fresh peach just before the snow flies, plant a few Salloway. Fruit ripens late—3 to 4 weeks after Elberta. It is round and very highly flavored. A peach that you'll like! We always plant a few Salloway for home use here because fruit comes out of season and everyone likes peaches late in the year. Perfect Flowering and hardy. **PRICED AT LEFT.**

Goldenette

new!

GOLDENETTE

Patent applied for.

THE PERFECT PEACH

Confidence governs decision. Confidence is won by delivering what we promise through truthful statements. We are not experts at writing copy, but we do know our subject—PEACHES.

We have been fruiting over fifty acres or more for ten years and in introducing Goldenette we know that a finer peach cannot be produced. In saying this we want you to know that your confidence and faith in us means more than your order, for quality is remembered long after price is forgotten.

Goldenette is the largest, most beautiful, round, and most richly flavored peach we have ever tested. It has a brilliant golden color and it is almost impossible to describe how bright this color is. Has a slightly red cheek. Skin is very firm, which should make it a good shipper. It ripens about the same time as Elberta, is fertile flowering and freestone. Goldenette has proved to be quite frost free. It is a fancy peach for a fancy trade and propagation rights are reserved by Stahelin. We want every customer who has room, to set one or two trees of this new variety. If, when these trees come into complete bearing, you are not satisfied, other stock will be sent to you free of charge in replacement.

Only a small number of these trees are available so that we must limit them to ten to a customer.

J. H. HALE

Extra Large Size—Very Profitable

J. H. Hale is extra large in size, round in shape, with a yellow flesh and deeply flushed cheeks. It is highly prized as a canning variety due to its red center. J. H. Hale is freestone and semi-fertile. It should be planted with other peach trees for cross-pollination. A peach that is recommended strictly for a fancy trade. Should not be planted in solid blocks because it is not self-pollinizing. **PRICED BELOW.**

PERFECT HALE

**A Money-Maker—
Weathers Drought—Cold**

A perfect flowering yellow variety. The Perfect Hale will ripen a few days after you have picked your Elberta peaches. This will lengthen your picking season a great deal. This is an Elberta type, although it is nearly round in shape. It has the rich "Hale" flavor, but its quality is about like Elberta, although it is more highly colored. Flesh is exceptionally firm, and richly flavored. Freestone. Perfect Hale has proved to be one of the best in hardiness. **PRICED BELOW.**

You Pick Fruit Years Sooner by Planting Stahelin's *SUPER SIZE* Bearing Age Trees

If you want 6 to 12 trees and quick results, order our Super-King Size Bearing Age Fruit Trees! They will bear in half the time and can be furnished in almost any variety. By setting these large trees you save time, as it requires from 3 to 5 years to grow them in the nursery. The cost, naturally, is higher, but your extra cost is quickly returned to you by the fruit which is produced soon

after planting. These trees require no special culture. They must be carefully planted, however, spreading out the roots in the opening and setting them deeply enough so that the wind will not blow them over. They should be carefully watered after planting and the addition of about 3 to 4 tablespoonfuls of commercial fertilizer per tree is advised.

SUPER SIZE APPLE TREES

These are large trees. They will caliper more than one inch, are heavily branched and well rooted. For varieties see pages 18 and 19. **6 to 7 ft. trees, \$2.50 each; 2 for \$4.25; 5 for \$10.00.**

SUPER SIZE PEAR TREES

Pears do not grow to a great height in the nursery but these trees will be from 5 to 7 ft. in height and one inch in caliper. See page 20 for the varieties in which these Super Size Pear Trees are available. **5 to 7 ft. trees \$1.75 each; 2 for \$3.00; 5 for \$7.00.**

SUPER SIZE PEACH TREES

These peach trees caliper one inch and up. Well-branched, extra heavy root system. Available in all standard varieties. See pages 13, 14, 15, 16. **5 to 6 ft. trees \$2.50 each; 2 for \$4.25; 5 for \$10.00.**

SUPER SIZE CHERRY TREES

Available in Montmorency only! Blocky, heavy-bodied, well rooted branched cherry trees. Will caliper more than one inch. Will bear quickly. Guaranteed to be virus free! **5 ft. up, \$2.25 each; 2 for \$3.95; 5 for \$8.85.**

5 In 1 APPLE TREE *"The City-man's Apple Orchard"*

The quintuplet apple is a tree that has been produced so that the small home owner, who has a restricted planting space, can have a variety of apples over a long picking season. We have budded some of the best kinds so that you will have a Double-Red Delicious, Jonathan, Winesap, Yellow Transparent, and Wealthy. These are five of the best varieties and they will bear fruit over a long period of time. The different varieties will bloom at different times and these trees can be used for ornamental purposes if desired.

These are large, 4 to 6 ft. trees, and are priced at \$2.25 each; 2 for \$4.10; 5 for \$9.75.

CAN BE SHIPPED BY FREIGHT OR EXPRESS ONLY.

Finest APPLE

Plant Stahelin's Improved

DOUBLE-RED JONATHAN

Is a solid red type of the Jonathan variety. It colors up very early in the fall, and enables you to pick your fruit a week to ten days before the common Jonathan will color up. The tree is medium in size, the fruit is firm, crisp and tender. Long lived, productive, and a very early bearer. A wonderful winter apple. **PRICED BELOW.**

SOLID-RED WINESAP

An improved strain of the old Stayman's Winesap, which gives you a great deal more color early in the season. It is a large, round, cherry red winter apple which is a wonderful keeper. Has a slight sweet-acid flavor, and is very popular for eating or cooking purposes. Tree is very hardy and thrifty. **PRICED BELOW.**

RED NORTHERN SPY

An improved strain of the common Spy apple. We have selected it from the best trees we can find so as to get a Northern Spy that will color up early in the fall. Our Red Northern Spy will do this. Very popular for eating and housewives demand it wherever it can be secured as it is wonderful for pies and sauce as well as eating. Flesh is white, tender and sub-acid. **PRICED BELOW.**

CORTLAND

This variety is perhaps the finest of our fall apples. It is a cross of the common McIntosh and the old Ben Davis. It retains all the fine qualities of McIntosh as to flavor, coloring, etc., but it also has the sticking qualities of Ben Davis. It adheres to the tree when the ordinary McIntosh falls to the ground. Large, dark red and good shipper. **PRICED BELOW.**

YELLOW DELICIOUS

This variety is identical in shape and size with the ordinary red Delicious, but is completely yellow in color. Is sweetly acid in flavor, with flesh that is very firm, crisp and juicy. Splendid shipper. Popular and profitable everywhere. The trees we offer are all from parent trees selected for extra quality, size and vigor. Bears young and is very productive. **PRICED BELOW.**

DOUBLE-RED DELICIOUS

This is the improved type of the common Delicious. The Double-Red naturally colors up much more and much sooner than the old Delicious. The tree does well practically all over the United States. Fruit is a wonderful size, is finely fleshed, juicy, and has a sort of sweet flavor with a slight acid taste. Excellent for eating and the most popular, for fruit-stand purposes. Outsell all others. Makes a very good winter apple. **PRICED BELOW.**

HYSLOP CRAB

This is the only variety of crab apple that we list, as it is by far the best. Fruit is a dark purple color when fully ripened and has a wonderful flavor. Used by canners for pickling, jelly, etc. Trees produce enormous crops, are long lived, and very hardy. **PRICED BELOW.**

TREE Varieties

Early Bearing Strains

WEALTHY

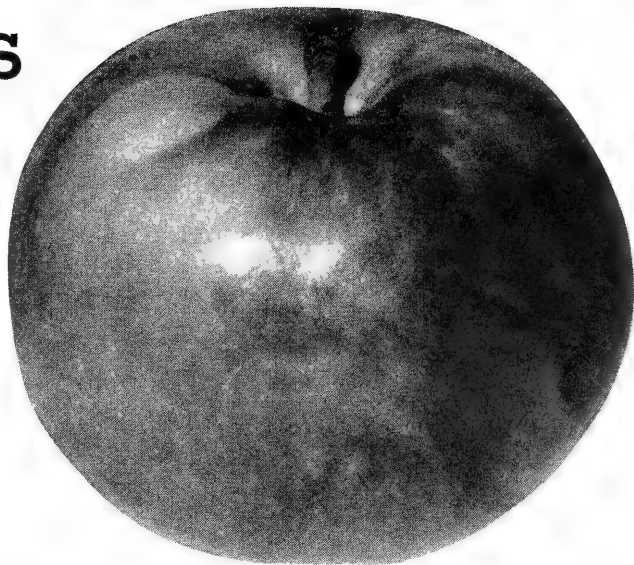

This is a variety that apparently does well all over the United States, and is one of the few kinds of apples that can be grown in the northwest successfully. It is a fall apple, medium in size, and has a very fine flavor. Much desired for cooking and pie making. The tree is quick bearing and extremely hardy. **PRICED BELOW.**

GRIMES GOLDEN

An all yellow apple. Round in shape, medium size, and the tree produces an enormous crop practically every year. It is quite acid in flavor, and is in much demand for canneries or cooking purposes. Quite hardy, and the tree is one of the best pollinizers that we know of. It ripens in the fall and is a good winter apple. **PRICED BELOW.**

RED ROME

This variety is sometimes known as Gallia Beauty, but it is simply an all-red strain of the old type Rome Beauty. It is very highly prized for baking purposes. It is almost a solid red, and the apple is produced on a tree which is very large in size. Fruit is white-crisp, with delicious flavor, and is one of the best varieties for winter storage. **PRICED BELOW.**

Red McIntosh

RED MCINTOSH

A superior strain of the old type McIntosh. It is practically all red and retains its color and appearance well after being picked. It sticks to the tree a great deal better than does the common McIntosh. It is a very important Fall apple. Trees are very hardy and bear quite young. An exceptionally fine eating apple, of good size, bright red color, and a delicious aromatic flavor. **PRICED AT LEFT.**

YELLOW TRANSPARENT

This variety is good to eat long before other varieties are ready. It is yellow in color; very crisp, juicy white flesh, and has a delicious flavor. One of the best of the early varieties. Tree is very productive; grows rapidly, bears young, and is very profitable. **PRICED AT LEFT.**

CONCORD

Grows on all soils, producing enormous crops of large blue-black berries of highest quality fruit. Highly resistant to drought, insects and diseases. Ripens mid-September. America's leading wine and table grape. Huge 3 yr. plants, 85c each. Other plants **PRICED ABOVE.**

SENECA

Commonly called the skinless grapes. Golden honey colored, flavor sweet and delicious. Vine is vigorous and very productive. A fine grape for storage. Prices: 1-yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

VAN BUREN

Absolutely new, although it has been thoroughly tested in all grape growing sections. Luxuriant grower, producing compact and well shaped bunches of blue-black color. Exceptionally sweet. Extremely early, ripening 3 to 4 weeks before any other grape is on the market. Prices: 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

GOLDEN MUSCAT

Bunches are of good size, brilliant yellow in color, and have a delicious flavor. Will do well wherever the Concord grows. Excellent shipper and producer. Prices: 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.

NIAGARA

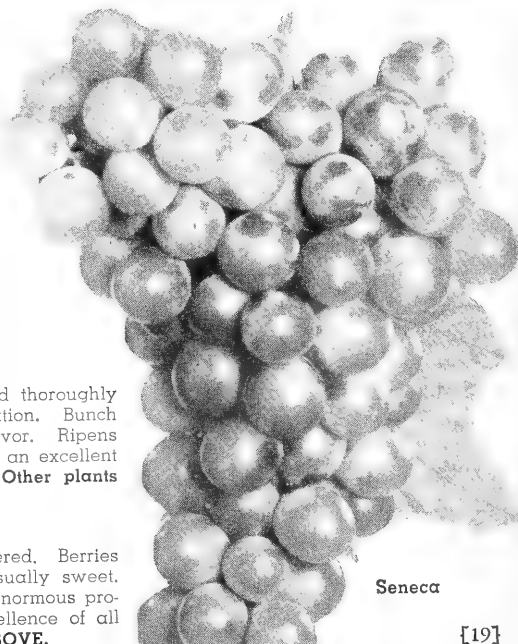

Leading commercial white grape. More productive than other white varieties. Berries are very large, and bunches compact. The quality of Niagara compares with Concord. **PRICED ABOVE.**

FREDONIA

A new early black grape, originated and thoroughly tested by the New York Experiment station. Bunch and berries are large with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper. Huge 3 yr. plants 85c each. Other plants **PRICED ABOVE.**

DELAWARE

Small, compact bunch, sometimes shouldered. Berries are small, red, with thin skin, and unusually sweet. Ripens with Concord. Very hardy, and enormous producer. Long called the standard of excellence of all grapes as a table delicacy. **PRICED ABOVE.**

Seneca

PEAR TREES

BARTLETT

The favorite commercial pear. Fruit is very large, juicy, golden yellow in color, with a soft blush. It is quite uniform in shape. Favorable for shipping, canning, and eating. The tree is a strong grower and produces very young. Hardy. **PRICED BELOW.**

CLAPP'S FAVORITE

Perhaps the largest of all pears, and always tops the market because of its excellent appearance. Greenish yellow skinned with a dark red blush. Quite juicy and sweet. A good shipper. Ripens shortly after Bartlett. **PRICED BELOW.**

FLEMISH BEAUTY

A pear that is honey sweet in flavor when fully ripe. Medium to large size, pale yellow colored with reddish brown cheek. Flesh is fine-grained, very juicy. Tree lives to a remarkably old age. Fruit ripens about the same time as Bartlett. **PRICED BELOW.**

BOSC

A popular pear in California due to its wonderful keeping qualities. A very long-necked pear which is used for boxing purposes, but is highly desirable because of its excellent flavor and shipping qualities. Tree bears young and is hardy. **PRICED BELOW.**

LAWSON

This pear, which is about the same size as Bartlett, ripens 50 days before Bartlett. It comes on the market when no other pears are to be had. Juicy and rich in flavor when properly picked. Tree grows to great height and is free from blight. **PRICED AT LEFT.**

Nectarine

Bosc

NECTARINE

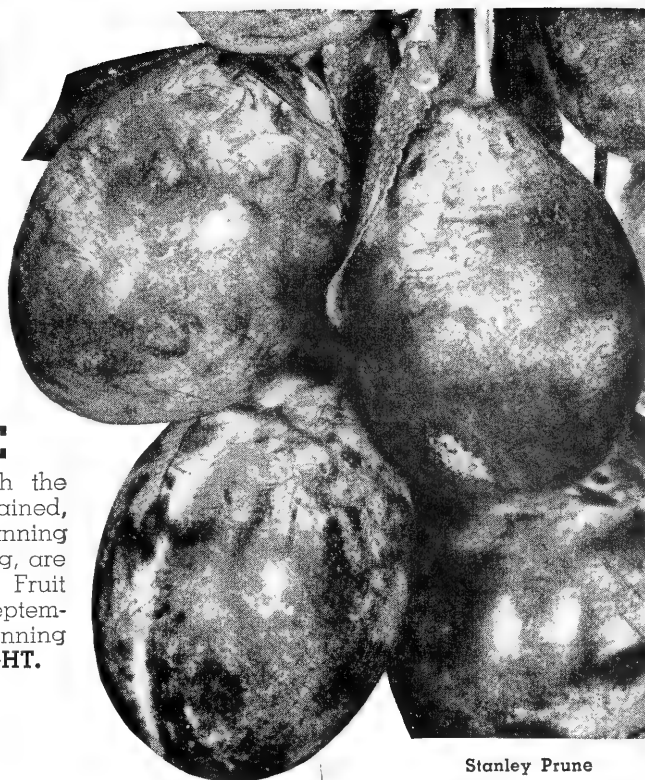

(Fuzzless Peach)

One of the most delicious of all fruits. Smooth skin of bright golden color with slightly red cheek. Hardy as peaches and require same culture. Tree is vigorous and bears young. **PRICES: 3 1/2-4 ft. trees \$1.50 each; 2 for \$2.90; 5 for \$6.50.**

PLUM TREES

STANLEY PRUNE

The Stanley Prune plum is without a doubt the finest and most beautiful blue plum that we have today. It is very large, very rich in flavor, and it is hardy in all sections of the United States. It is deep blue in color with a golden yellow flesh and it is absolutely freestone. The chief quality of Stanley Prune, other than its large size and beautiful color, is that it does not rot on the tree. It is quick bearing, often starting to bear the second year after it is planted. Excellent shipper. **PRICED BELOW.**

GREEN GAGE

The famous dessert Plum with the sweet tart flavor. Flesh is fine-grained, firm and juicy. Excellent for canning and shipping. Trees bear young, are hardy and prolific producers. Fruit is freestone. Ripens in early September. Sweetest eating and canning plum. **PRICED BELOW AT RIGHT.**

Yellow Egg

BLUE DAMSON

Most popular of all preserving plums. Extremely high flavored. Turns a rich wine-red when preserved. Small fruit, dark blue in color, rich golden interior. Highly prized for jams and jellies. Tree is hardy, bears early and is a heavy producer. Grows 10 to 12 feet high. **PRICED BELOW.**

YELLOW EGG

A plum that is egg shaped, very large size, golden yellow and exceptionally sweet. Prized highly for culinary purposes. Trees grow very large, are hardy and vigorous. Fruit ripens in late August. **PRICED BELOW.**

GOLDBECK PERFECTION

APRICOT

A perfect variety for vigor and hardiness. Very uniform in size, averaging that of medium sized peach. Delicious Flavor! Rich, golden colored apricot-yellow, ripening evenly all over. Can be picked tree ripe for shipping. The finest apricot today. **Prices:** 3-4 ft. \$1.50 ea.; 3 for \$3.75; 10 for \$11.95. 4 ft. up \$1.95 ea.; 3 for \$4.50; 10 for \$12.50.

ORANGE QUINCE

We list only one kind of Quince, which is the Orange variety. This is a dwarf growing tree which should be planted about 12 to 14 ft. apart. The foliage is very leathery, disease resistant and quite dark in appearance. Orange Quince is hardy in practically all sections. The fruit is as large as a good sized apple, golden yellow in color. This variety is valued very highly for preserving or jelly making. **Price:** 3-4 ft. trees each \$1.75; 3 for \$5.00; 6 for \$9.00. {21}

Make Money on Raspberries the First Year!

2 Year Bearing Age Plant

Plant STAHELIN'S 2-yr.-old BEARING AGE PLANTS

As a great many of our customers desire quick results in their gardens, we have produced a few thousand of these large size black raspberry plants to supply this demand. These black raspberry plants are very large. They will run from 18 to 24 inches in height. They will all be branched and they will have a mass of heavy roots. If you plant them carefully every one of them will live and will produce a partial crop for you the first year. A great many commercial growers are planting this type of plant as it assures them of getting a full crop in two years, whereas the one year plants must be grown three years in the field before they will bear to any extent. We suggest to those that order these two year plants that they cut them back to some extent and not allow them to bear fully the first year.

Stahelin's BLACK RASPBERRIES

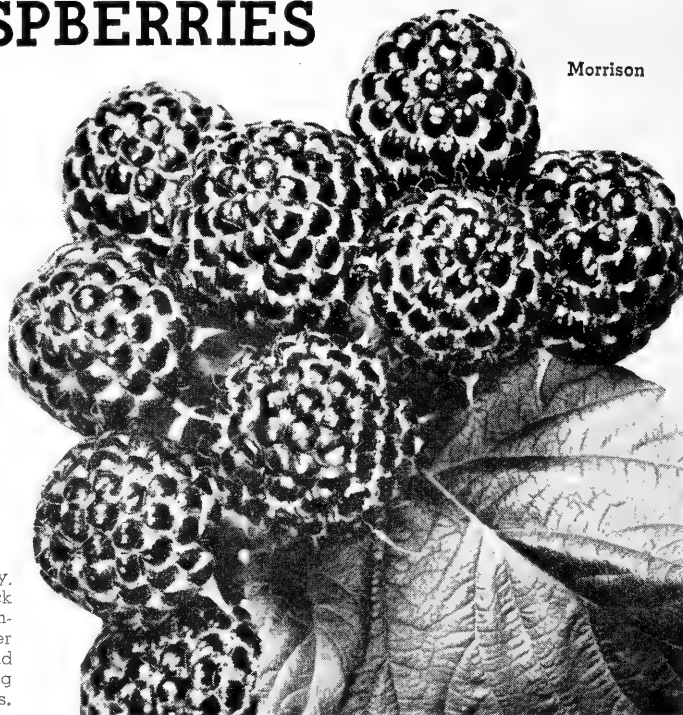

MORRISON THE GIANT BLACK RASPBERRY

This variety originated as a chance seedling in northern Ohio and has attracted a great deal of attention by commercial growers because of its abnormal size. The plant is an extra strong grower, being quite free from the common black raspberry diseases. Ripens somewhat later than Cumberland and has a very dark glossy color. Berries are firm in texture and high in quality. Plants are not plentiful and price is somewhat higher than commonly asked for the old varieties, but we believe a trial planting will prove they are worth more.

PRICES—1 Year No. 1 Plants

25 for \$2.50	100 for \$ 7.50	1000 for \$55.00
50 for 4.50	500 for 35.00	2000 for 95.00

2 Year Bearing Age Plants priced above at right.

Morrison

CUMBERLAND KING OF THE BLACKCAPS

Most popular black raspberry today because of its great size, beauty, firmness and productiveness. The fruit is the largest of the black raspberry family, often measuring almost an inch in diameter. Cumberland is very hardy, will stand severe drought and cold weather conditions well, without injury. It sets a great many berries, and should be heavily trimmed to get best results. Wonderful canning berry, makes delicious pies and jelly. Commands top market prices. Almost disease free and very popular because of this quality. Able to grow on almost any soil that is not wet.

LOGAN EARLY SWEET BLACK RASPBERRY

An Ohio origination. Logan ripens seven to ten days ahead of Cumberland, which allows the grower to get on the market ahead of other varieties, giving him an opportunity to make some real money. Produces immense crops of jet black berries, as large as Cumberland. Does not crumble, and the last picking looks as nice as the first. Stands severe weather conditions. A great deal of its present popularity is due to its "disease-free qualities." Of high dessert quality and fine for canning. PRICED BELOW.

Stahelin's RED RASPBERRIES

Latham

LATHAM THE FAMOUS LATE RED RASPBERRY

The Latham is a big, late ripening, red raspberry that grows on a very stiff cane and comes on the market at a time when practically all other raspberries are gone. Very productive, it will produce from 5,000 to 7,000 quarts per acre, which is about twice as much as any other red raspberry available today. This is a superior variety which does well in all sections of the country. It is adaptable to all sorts of soil conditions, climates, and locations. Cold weather has no effect on Latham as it originated in Minnesota. A great shipping and canning berry. Produces fruit of large size, fine color, and good flavor.

The plants we offer are of the best quality and carry triple inspection certificates as being disease-free. Planted on disease-free soil they can be kept this way.

INDIAN SUMMER *EVERBEARING*

A berry that has beauty, flavor and everything combined to make an ideal everbearing variety. Has marvelous keeping qualities—a sensation because of its size and unusual beauty. Bears a large crop in the spring and in the fall. Plants are thrifty growers, hardy, free of any diseases, and enormous producers. Berries are excellent for eating, canning or freezing, making delicious jams and jellies. A trial planting will convince you.

SUNRISE THE FINEST EARLY RASPBERRY TODAY

An excellent red raspberry, which we recommend very highly. It starts to ripen in Michigan the latter part of June, about two weeks ahead of Latham, and because of its habit of sending up long shoots from the bottom of the cane, which ripen later than the buds at the top, it has an extremely long picking season. About the size of Latham, and a bright red when ripening. Fine textured, juicy; does not crumble, and is very firm. Does not require expert attention to grow. Plants are vigorous and bear heavily. Easy to pick and sell.

Ebony King

New "Ebony King" BLACKBERRY

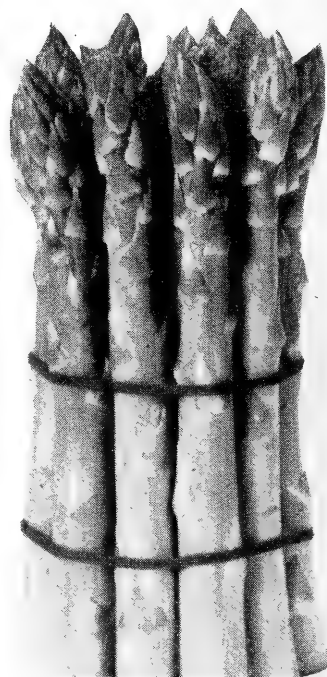

**FIRST TO RIPEN—GUARANTEED TO
BEAR 100%**

To the blackberry growers, the Ebony King will mean that you can now get a variety of which every plant is guaranteed to bear 100%.

HARDY—MICHIGAN ORIGATION. Ebony King originated in Berrien County, Michigan, and has never winter-killed during its testing years, when we have had some very cold weather, so we can classify it as extremely hardy. It is a very large blackberry, of high dessert quality, with very little core. It is jet black and plants which have been fruited during the past few years have produced enormous quantities of fruit. **DISEASE-FREE.** The foliage of Ebony King is quite leathery and has shown no signs of any disease whatsoever in the testing field. We suggest you make a trial planting. **PRICE: No. 1 Rooted Cuttings** 6 for \$2.10; 12 for \$3.35; 25 for \$6.55; 50 for \$12.15; 100 for \$19.50; 250 for \$41.85; 500 for \$75.50.

We have discontinued growing Alfred and Eldorado Blackberries

Stahelin's Pedigreed ASPARAGUS

Paradise Asparagus

New PARADISE

Early, Easy to Grow, Rust Resistant, Immense Money Maker

The New Giant Strain of asparagus. It will produce a crop one or two years sooner than will any other known variety today. It is rust resistant, producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last from 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm.

Paradise asparagus offers you a great opportunity to make money. These fine large rooted plants, produced from expensive pedigree seed, enable you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care. We have complete culture on asparagus, ask for it when ordering.

MARY WASHINGTON

The pedigree seed that we use produces specimen stock often more than an inch in diameter. It is very crisp and delicious. Wonderful for canning. The heads of Mary Washington are very solid and compact; thus, always commanding a better price than asparagus that has loose heads. This variety is absolutely rust resistant. Grows very fast and comes up exceedingly thick in the row, producing a very heavy crop. Approximately 5,000 plants are required to set an acre. Once planted they last for years, requiring little care. Starts to bear in Michigan in May and continues for about two full months.

RED LAKE CURRANT

The finest Red Currant today. Originating in the northwest, it is very hardy and will grow almost anywhere. Ripens mid-season.

WILDER CURRANT

One of the most popular varieties in this large currant-growing section. Fine commercial variety. Has large bunches and berries are very firm.

RED CROSS CURRANT

A highly prized variety, preferred by many growers. Very reliable. Bears dark red, firm clusters with high pectin content.

A BEAUTIFUL LIVING BARBED-WIRE FENCE

MULTIFLORA ROSE

Low Initial Cost—No Repairs

The Multiflora Rose is a living fence, is an aid to soil conservation, and it seems to be adapted to almost the entire Country. Grown on soil of average to good fertility, it will produce a hedge in three to four years that will turn any kind of livestock except small hogs and poultry. In May or June, a Multiflora Rose fence presents a spectacle of a ribbon of bloom running over the hillside. The white or dusty pink bloom comes all at once and lasts about two weeks. Foliage appears early in spring and persists until heavy frosts of winter. Multiflora Rose is a natural habitat for game birds and wild life of all kinds.

Stock-Proof and Well-Behaved

Multiflora Rose is being sold to farmers who are up against it because of the high cost of posts and wire. This plant will grow and thrive under any conditions and is very well-behaved—it does not throw up sprouts nor spread, but continues to grow thicker and higher as it grows older. It will solve your fencing problem! We have these plants economically priced in a small size, but if you want quick results, plant the large or jumbo size. We suggest that you order these plants early as they are always in great demand and our supply is usually sold long before our shipping season is over.

Buddleias

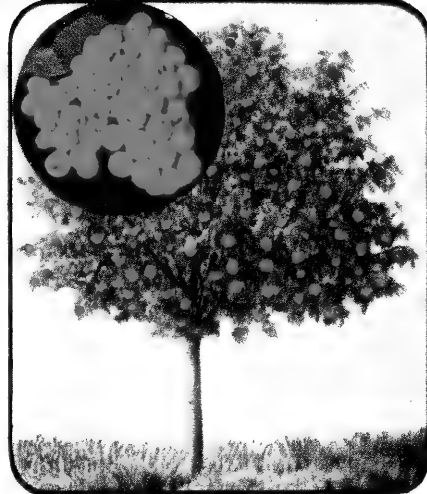

BUDDLEIAS

(Butterfly Bush.) Also frequently referred to as "Summer Lilac." Blooms from early summer to frost, with panicles often 15 to 18 in. long. Flowers are fragrant and profuse. Available in **Charming** (Pink), **Ile de France** (Rosy Purple), **Dubonnet** (rich wine-red with slight purple overcast), and **Empire Blue** (Pat. No. 557). **Strong, field-grown plants 75c each; 3 for \$2.10.**

We recommend to you **POPULAR GARDENING**, America's new all-garden magazine. It will help you grow better flowers, fruit, vegetables and shrubs. A special introductory order form for customers of **STAHELIN'S NURSERY** is inclosed.

Magnolia Soulangeana

EUROPEAN MOUNTAIN ASH

A very popular tree all over America. In late summer it is laden with clusters of bright red berries against background of lacy green foliage. Hardy and one of our most beautiful ornamental trees. At maturity attains a height of 18 to 25 ft. **PRICE: 3 to 4 ft. each \$1.75; 2 for \$3.00; 4 to 5 ft. each \$2.25; 2 for \$4.40.**

MAGNOLIA

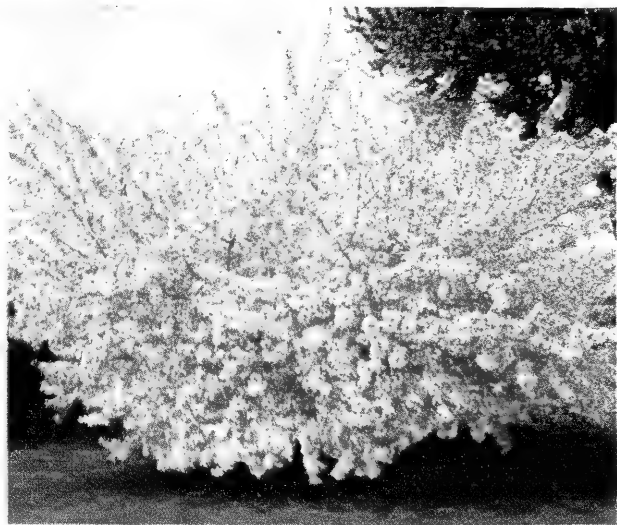

Magnolia Soulangeana is the most popular of the Magnolias. Produces large rose-pink blooms before any leaves appear in spring. Reaches height of 10 to 15 ft. at maturity. Very ornamental at all times. **18-24 in. trees \$2.95 each; 3 for \$8.10.**

BLUE HYDRANGEA

Most perfect of all Blue Hydrangeas. Prefers acid soil and does well in shade. Blue color is produced almost entirely on new wood and pruning is recommended as flowers on old wood may show slightly pink the second year. At maturity this Hydrangea will be 2 to 3 ft. in height and a solid mass of blue flowers. **Strong field grown plants \$1.40 each; 3 for \$3.75.**

Blue Hydrangea

HOPA FLOWERING CRAB

Most beautiful Flowering Crab that can be grown in the North. Absolutely hardy. Graceful, medium-sized tree, strikingly ornamental. Buds are blood-red, flowers deep rose-colored. Fruit makes excellent jelly. **3-4 ft. trees \$1.50 each; 3 for \$3.75.**

BLUE LEAF ARCTIC HEDGE

Dwarf Blue Willow. Low growing, excellent for hedges. Foliage is a lovely gray-blue. Grows anywhere, even on wet or heavy soils. Plant 8 in. apart. **Well rooted plants 12-15 in. 45c each; 3 for \$1.20; 10 for \$3.50.**

French Pussy Willow

Stahelin's Hardy **Flowering Shrubs**

CALYCANTHUS

(Sweet Shrub.) An old garden favorite. Fragrant shrub with chocolate colored flowers and shiny green leaves. Blooms from May to October. Field-grown—18-24 in. 70c each; 3 for \$1.95.

FRENCH PUSSY WILLOW

Silky gray catkins burst forth to decorate the brown twigs early in the spring. Branches may be cut in mid-winter for bouquets in the house. Large tree-like shrub with long narrow leaves. 18-24 in. plants 75c each; 3 for \$2.10.

HONEYSUCKLE, PINK TARTARIAN

Bright pink flowers in spring, loads of bright red berries in fall. Thrives in shade or sun. Reaches height of 5 to 6 ft. Very hardy. Field grown plants 70c each; 3 for \$1.95.

AZALEA MOLLIS

Hardy. Grows 3 to 4 ft. tall. Blooms in May and June with striking flowers, generally seen only in the South. Prefers partial shade and slightly acid soil. 2 yr. field-grown plants \$1.25 each; 3 for \$3.10.

FORSYTHIA

Golden Bell. Golden blossoms cover every limb and twig before leaves appear. Grows 8 to 10 ft. tall. Thrives in sun or part shade with ordinary moisture. 2 yr. plants 70c each; 3 for \$1.95.

FLOWERING ALMOND

Blooms very early in spring, before leaves appear. Completely covered with small double shell-pink flowers which resemble small roses. Grows 3 to 4 ft. tall. 18-24 in. trees 80c each; 3 for \$2.25.

HALL'S JAPANESE HONEYSUCKLE

Strong and vigorous growing. Produces pure white flowers gradually changing to yellow. Very fragrant. Does well all over the country. 2 yr. field grown plants 70c each; 3 for \$1.95.

DOUBLE FLOWERING ALTHEA

(Rose of Sharon). Large double blooms from midsummer until winter. Attains height of 6 to 8 ft. Ideal for backgrounds or borders. Red or White. Field-grown 70c each; 3 for \$1.95.

Weigela Rosea

Red Snowberry

EVERGREENS *for Year Around Beauty*

SPINY GREEK JUNIPER

Its usual habit is narrow and columnar, with many erect branches and branchlets. Foliage is spiny, with sharp points and of a glaucous blue color. Makes a very dense growth, eventually reaching a height of 5 ft. at maturity. May be trimmed as desired. **PRICE: 10-12 in. Transplants each \$1.50; 3 for \$3.75.**

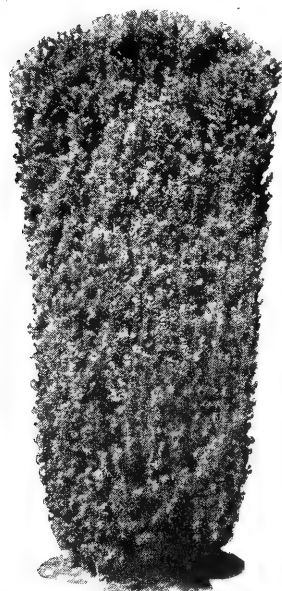

COLORADO BLUE SPRUCE

The Colorado Spruce is without a doubt one of the finest of blue-type evergreen trees. It grows to a great height and is an ornamental tree of glistening silvery blue from early spring to midsummer. Originated in the cold section, it is very hardy and is perhaps the most showy and popular of all spruce trees. We have grown a fine lot of this spruce, the seeds taken from carefully selected trees so as to obtain the very finest color. **PRICE: 10-12 in. heavy transplants each \$1.75; 3 for \$4.50; 10 for \$12.00.**

SPREADING YEW

This type of Yew is similar to the Pfitzer. Branches out from the bottom into a low bushy formation. Can be trimmed to desired height or to fit space. Foliage dark green. One of the most popular evergreens. **PRICE: 10-12 in. heavy plants each \$1.75; 3 for \$4.50.**

HATFIELD YEW

Grows in columnar erect form. Vase-shaped. Color is extremely dark green, the foliage heavy and luxuriant. Very hardy, easy to grow, and does well in shade. Somewhat resembles Hicks Yew. **PRICE: 8-10 in. transplants each \$1.75; 3 for \$4.50.**

[32]

Pfitzer's Juniper

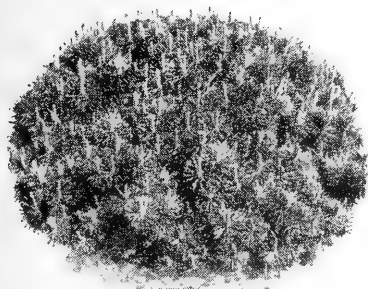

Favorite of all spreading Junipers. Low, spreading bush with plume-like branches. Beautiful silvery blue-green foliage. Very hardy and will stand considerable shade. A favorite for foundation planting. **PRICE: 10-12 in. heavy transplants each \$1.75; 3 for \$4.50.**

Pyramidal Arborvitae

A favorite for entrances. Grows tall and narrow. One of our leading evergreens, it grows rapidly, has a shapely pyramidal habit and is easily trimmed. Very popular in this part of the country. **PRICE: 15-18 in. heavy plants each \$1.75; 3 for \$4.50.**

Grow More Beautiful Each Year

MUGHO PINE

The leading Dwarf Evergreen. Numerous side branches begin close to the ground, spreading horizontally and turning upward in regular growth. Grow in shade. **PRICE:** 4-6 in. spread each \$1.00; 3 for \$2.85.

DWARF LEMON AMERICAN WONDER

(Grows Lemons indoors on small plants.) Most unique plants ever offered for indoor culture. Covered with waxy white flowers several times a year, followed by large lemons often weighing a pound. **PRICE:** 2 1/4 in. pots each 85c; 2 for \$1.60.

DWARF ORANGE

A wonderful pot plant of great beauty and novelty. Glossy green leaves, fragrant waxy white blossoms, tinged with pink. Flowers are followed by edible fruit about one-fourth the size of ordinary oranges. **PRICE:** Potted plants in 2 1/4 in. pots 85c each; 2 for \$1.60.

POPULAR DOORWAY PLANTING

- 2 Pyramidal Arborvitae, 15-18 in.
- 2 Pfitzer's Juniper, 10-12 in.
- 2 Mugho Pine, 4-6 in. spread

CANADIAN HEMLOCK

Most graceful of all evergreens, its long branches drooping gracefully to the ground. Needles are soft. Dark green on top, silvery beneath. Can be trimmed. **PRICE:** 8-10 in. each \$1.00; 3 for \$2.85.

NORWAY SPRUCE

Most familiar of the old Evergreens as it has been planted almost universally. Hardy, robust, and thrifty, grows rapidly. Thrives on both damp and high ground. **PRICE:** 12-15 in. each \$1.25; 3 for \$3.45.

EUROPEAN LARCH

This is an upright conical grower. Begins to grow at low temperature with soft, feathery light green foliage early in spring. Again in autumn it is very beautiful as its needles turn a golden color before falling. One of our best lawn trees. **PRICE:** 18-24 in. trees \$1.00 each; 3 for \$2.75.

MIDGET VEGETABLES For The Small Garden

Now, with even the smallest back yard space you can enjoy garden fresh vegetables. You'll say this new race of miniature melons and vegetables is the best eating you've ever known! Easy to grow; simple cultural instructions with every order.

NEW HAMPSHIRE MIDGET WATERMELON.

Miniature 7 to 8 in. melons; easy on refrigerator space! Crisp, juicy, sweet, delicious; few seeds, very little rind.

GOLDEN MIDGET SWEET CORN.

Tenderest, sweetest corn ever grown! 4-inch butter-yellow ears on 30-inch plants. Ideal for freezing and canning.

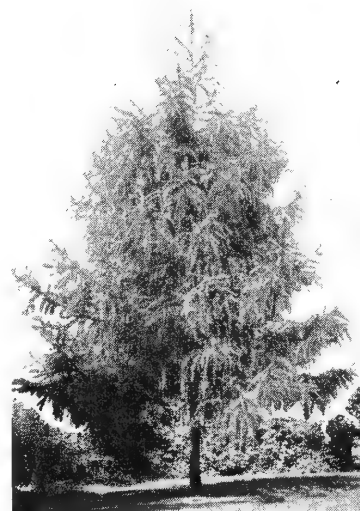

BABY MINCU CUCUMBER. Very similar to normal strain of Mincu Cucumber. Quality, yield and general adaptability equal to regular Mincu.

MIDGET MUSKMELON. Vines only 3 ft. long producing amazing numbers of luscious 4-inch melons. Superb flavor. Edible to the rind.

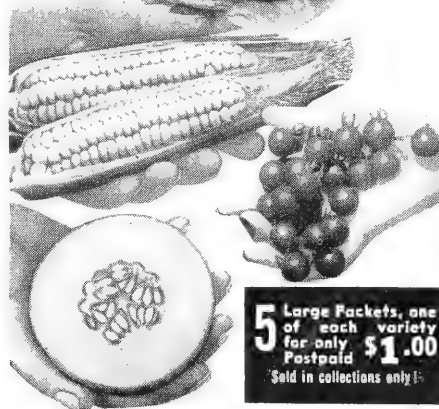

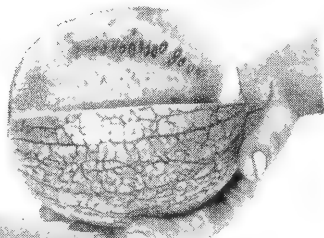

BABY BUSH PUMPKIN. Perfect 8-inch pie pumpkins on dwarf bush-like plants. Golden fine-grained flesh makes delicious flavor-rich pies.

BECHTEL'S FLOWERING CRAB

A hardy, small, flowering tree. Double flowers of delicate pink, resembling small Roses. Very fragrant. Ideal for the small lawn. 2-3 ft. trees, each \$1.25; 2 for \$2.40; 5 for \$5.75.

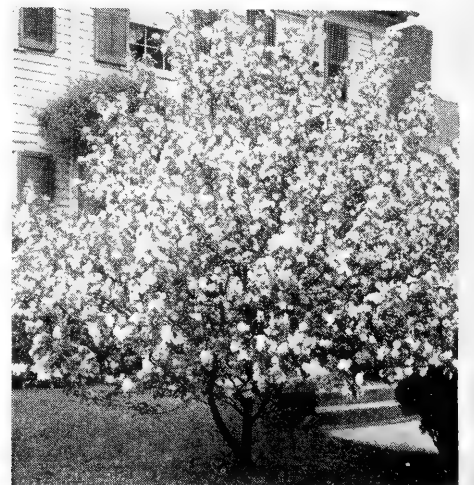

Flowering Peach

[34] White Flowering Dogwood

Tulip Tree

Bechtel's Flowering Crab

CRIMSON KING RED NORWAY MAPLE

(Patent No. 735)

The Crimson King Maple is one of the most beautiful of all red-leaved trees. Grows identical with the common maple and is the same size, but has deep red leaves from early spring until late fall. Originated in Norway and is therefore entirely hardy. Creates a sensation wherever grown. These 2 yr. old trees will grow rapidly and become beautiful showy trees in a short time. Order your Crimson King Maple early so that you will not be disappointed, as the demand exceeds the supply available, year after year!

PRICE: 3-4 ft. trees each \$3.75; 2 for \$7.00; 10 for \$32.50. Net, No Discount.

Crimson King Maple

New RED Bartlett PEAR

MAX-RED BARTLETT, Plant Patent No. 741. This variety is a new sport of Bartlett Pear. It originated in the Northwest and is very hardy. The fruit carries a good all-over red color. Excellent keeper. The high quality fruit ripens in the regular Bartlett season.

PRICES: 9/16 trees only. Branched. Each \$2.50; 2 for \$4.25; 10 for \$19.50. Net, No Discount.

RED LEAF PEACH

Brilliant Red Foliage All Year

We offer this brilliant red-leaved tree as something quite new in the ornamental field. It is not only decorative, but produces worthwhile fruit at the same time. Its habits of growth are practically identical with the common peach, and its deep rose colored blossoms, against the red foliage, produce a very pleasant picture when set among other plantings. The fruit from this tree is about 1½ to 2 in. in diameter, round and very red. Flesh is white and very highly flavored, making it especially desirable for pickling.

PRICE: 3½-4½ ft. trees \$1.45 each; 2 for \$2.60; 10 for \$11.95. 4½-6 ft. trees \$1.75 each; 2 for \$3.15; 10 for \$14.95.

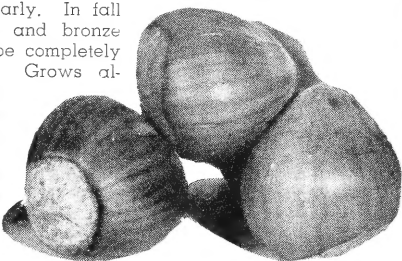

[35]

Red Leaf Peach

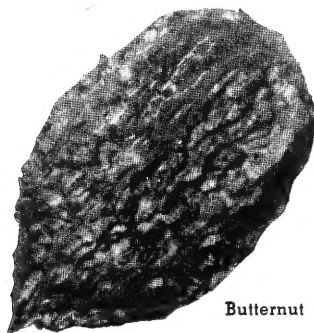

HARDY HAZELNUTS

The Hazelnut trees which we offer are nursery grown stock and will be well rooted and branched. Makes a fine well-branched shrub, 5 to 6 ft. tall and very attractive. Bears very early. In fall leaves turn scarlet and bronze and the bush will be completely covered with nuts. Grows almost anywhere and produces huge crops. Set two or more for best results. **PRICE: 18-24 in. 2 yr. br. trees 95c each; 3 for \$2.70; 10 for \$7.95.**

BUTTERNUT

This native nut tree grows in almost every section of the United States. Attains large size at maturity. Starts to bear very early, about 3 to 5 years of age, and will produce a crop annually. The native Butternut is a conical shaped nut that is very nutritious, carrying a very large amount of oil. It grows very easy. It makes an excellent shade and you can plant them in any corner or other sections where ordinary trees cannot be produced, as they require no spraying. **PRICES: 2-3 ft. trees each 85c; 2 for \$1.60; 5 for \$3.75; 25 for \$17.50. 3-4 1/2 ft. trees each \$1.10; 2 for \$2.00; 5 for \$4.75; 10 for \$9.25.**

Butternut

NOTICE: NUT TREES CAN NOT BE SHIPPED TO ARIZONA, CALIFORNIA, IDAHO, NEW MEXICO, OREGON, UTAH AND WASHINGTON

Hardy ENGLISH WALNUTS

NORTHERN GROWN—THIN SHELL

Plant Nut Trees For Profit, Beauty, Shade and Pleasure

The hardy English Walnuts which we handle are all direct descendants from the original seed which was sent here from the Carpathian Mountains. Their hardiness, rapidity of growth, their long life and beauty, and finally their timber, makes them very desirable. Besides this, they produce large quantities of edible nuts and add greatly to the value of any property on which they are planted. These trees are not always fertile, therefore we suggest that more than one be planted for cross-pollination and guaranteed success.

CARPATHIAN

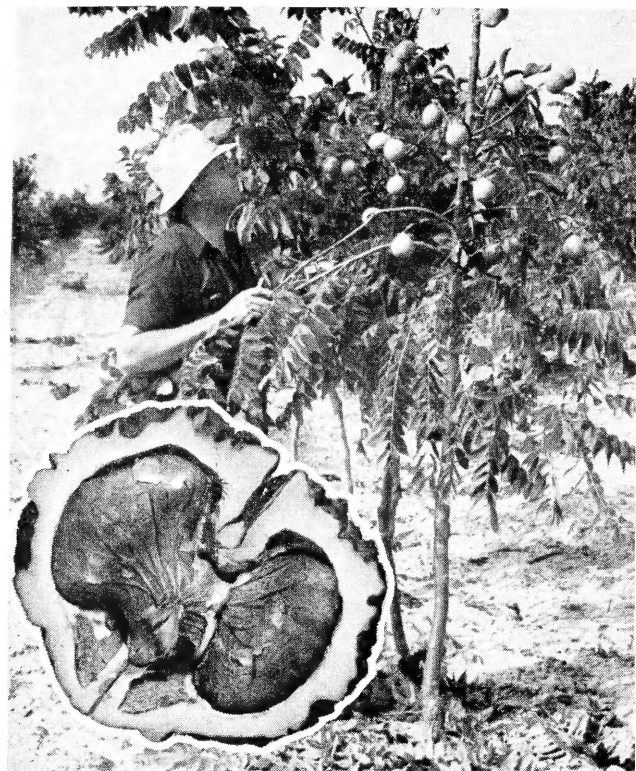

The Carpathian English Walnut is the king of nut trees. It is a paper shell walnut. Grows in many parts of the world. Hardy. Produces nuts varying in size from that of the California English Walnut to three times its size.

PRICES: 2-3 ft. branched trees each \$2.35; 2 for \$4.20; 5 for \$10.25. 3-4 ft. trees each \$2.85; 2 for \$5.50; 5 for \$13.50; 10 for \$24.50.

FREE CULTURAL INSTRUCTIONS FOR ALL NUT TREES INCLUDED WITH ORDER UPON REQUEST.

THOMAS BLACK WALNUT

Big Profits And Delicious Nuts From A Beautiful Shade Tree!

[36] Grafted Black Walnuts producing at age of four years.

Great care has been taken to bud the Thomas Black Walnut from the best parent trees to be found. It not only produces profitable crops, but will produce valuable timber in time. Thomas Black Walnuts are easy to grow as the trees flourish under almost any condition that is not too wet. Grows to great height in a short time.

Produces Giant Size Nuts Second Year

Thomas Black Walnut trees often begin to bear the second year after planting. They produce nuts of very large size with a thin shell, which cracks well. Nuts have wonderful flavor and kernels come out in halves, making this variety especially desirable. A mature tree will bear from 15 to 40 bushels of giant-sized nuts during a twelve-months' period.

PRICES: 2-3 ft. trees each \$2.15; 2 for \$4.10; 10 for \$19.50. 3-4 ft. trees each \$2.50; 2 for \$4.75; 10 for \$22.50.

NUT TREE COLLECTION NO. 22

- 2 Butternuts, 2-3 ft.
- 2 Native Black Walnuts, 3-4 ft.
- 2 Thomas Black Walnuts, 2-3 ft.

All for **\$6.25** Net,
No Discount

NATIVE BLACK WALNUT

Stahelin's Black Walnuts are grown from seed produced on our own farms from the Thomas, Stabler, and Weir varieties. While not as thin shelled as the nuts from cultivated trees, they are excellent and you still have a better Black Walnut. These trees are hardy anywhere in the U. S. and thrive in sunny, well-drained soil. Fast growing and long lived.

PRICES: 3 1/2 ft. up each 85c; 2 for \$1.60; 5 for \$3.75; 25 for \$17.50; 50 for \$32.50. 4 1/2 ft. up each \$1.00; 2 for \$1.90; 5 for \$4.50; 25 for \$21.25; 50 for \$39.50.

Hardy ENGLISH WALNUTS

It has only been in recent years that these Hardy English or paper shell Persian Walnut trees have been available. These trees grow in many parts of the world; the hardiest being found in Poland and the Northern Carpathian mountains where the temperatures drop to much below zero. We list the Carpathian variety. In Canada, where our trees had their source, this variety has been a very heavy producer and thousands are now growing in many of the northern states. Further description and prices on opposite page. **PRICE:** 2-3 ft. branched trees \$2.35 each.

Large nut trees do not transplant readily. These trees are what is known as "tap root" trees so that the smaller trees transplant more rapidly. Therefore larger sized trees are not offered.

NUT TREE BARGAIN NO. 23

- 2 Chinese Chestnuts 2-3 ft.
- 1 English Walnut 2-3 ft.
- 1 Thomas Black Walnut 2-3 ft.

CHINESE CHESTNUT

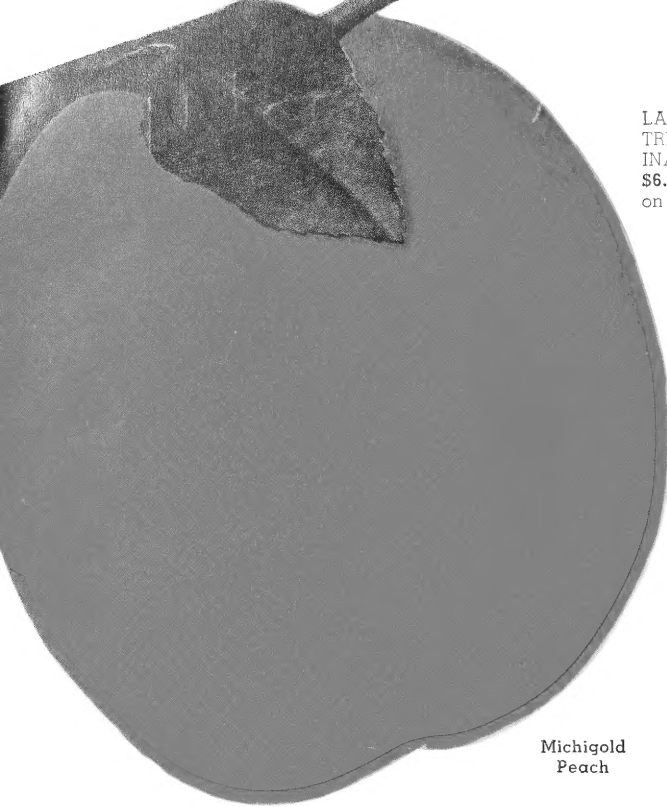

The Chinese Chestnut is the only blight-resistant chestnut. The seed from which our trees are grown have been collected from trees known to be truly blight resistant and so isolated that pollen from other Chestnut trees cannot mix with them.

PRICES: 2-3 ft. branched trees each \$1.75; 2 for \$3.25; 5 for \$7.50; 10 for \$13.95. 3-4 ft. branched trees each \$2.15; 2 for \$4.10; 5 for \$9.75; 10 for \$17.50.

HARDY PECANS

We have spent a lot of time and effort to secure or locate Pecans which will be suitable for our customers. We have finally secured a source of good seed, and can now offer you a Northern Pecan which is as hardy as any Hickory nut, and should not be confused with the Southern Pecan. These trees grow naturally on overflow lands, but they will grow any place where you have good soil. They are very able to adapt themselves to different conditions. They make a beautiful ornamental tree, growing to a great height in the course of time, and will produce a wonderful crop of nuts if conditions are right. **PRICE:** 18-24 in. trees, each \$1.10; 3 for \$2.95; 10 for \$8.75. 2-3 ft. trees, each \$1.45; 3 for \$4.05; 10 for \$11.75.

Starglow ★ APRICOT

**A VERY HARDY APRICOT,
ORIGINATING IN MICHIGAN**

This marvelous new apricot originated in central Michigan and is of very large size, brilliant yellow color, marvelous flavor, and absolutely freestone. The fact that this apricot is a seedling which came up in Michigan should make it especially hardy and late flowering, which is a very desirable feature in all apricots. Starglow apricots will produce a crop of fruit for you where most of the other apricots will fail. Self pollinizing.

PRICE: 3 to 4 ft. trees \$1.65 each; 3 for \$4.50; 10 for \$13.25. 4½ ft. and up \$2.15 each, 3 for \$5.25; 10 for \$14.95.
